Our business...

PEOPLE ARE AT THE HEART OF EVERY BUSINESS SUCCESS AND AT IRWIN ELECTRICAL WE HAVE A KNOWLEDGEABLE, EXPERIENCED AND HIGHLY QUALIFIED TEAM FOCUSED ON DELIVERING FOR OUR CUSTOMERS.

Since Irwin Electrical was established by John Irwin in 1995, we have developed at a considerable rate to become one of the UK and Ireland's leading electrical service providers in the commercial, public, industrial and domestic sectors. With offices in Portadown and Belfast, we are perfectly positioned to offer the highest standard of service to customers anywhere in the UK or Ireland, providing a bespoke range of electrical services to a wide range of clients working on a variety of projects. From local SMEs to large multinationals we deliver an equal service to all our clients across three core areas:

- Installation • Electrical Inspection and Testing • Maintenance

With an expert team on the ground, we also have the back-up of quality management systems behind the scenes to ensure that every customer receives documented procedures and sustainable activities are promoted and adhered to at all times.

OUR VISION

Our vision is to develop and build strategic partnerships with our customers. Our skilled electricians use the latest technology, communication methods and practices to deliver the best service possible.

We pride ourselves on understanding the needs and demands of our customers, allowing us to provide tailored solutions and creating mutually beneficial relationships that last.

DEVELOPING STRONG PARTNERSHIPS IS THE KEY TO SUCCESS

Tegg Service®

TEGG SERVICE® IS A UNIQUE GUARANTEED SERVICE PROGRAMME THAT USES ENERGISED TESTING TECHNIQUES TO ASSESS THE INTEGRITY OF ELECTRICAL SYSTEMS. IRWIN ELECTRICAL IS THE ONLY COMPANY IN IRELAND LICENSED TO OFFER THIS SERVICE.

Tegg Service® provides our clients with tailor-made, high quality and lowest possible cost solutions. This ongoing preventative maintenance service offers a wide range of advantages, not least an improvement in energy savings, a reduction in business interruption, and improved productivity. The TEGG Service® will also minimise electrical utility costs, power quality risks and safety risks not to mention extending the life of electrical equipment.

WHAT WE OFFER

TEGG SERVICE GUARANTEED PROGRAMMES INCLUDE

TEGG BASIC

- Utilises thermographic and ultrasonic technology for analysis of the electrical system
- 90-day guaranteed repair or replacement
- Guaranteed repair service during normal business hours

TEGG PREMIUM

- Provides full energised testing and analysis
- Minor service such as exterior cleaning of equipment
- Comprehensive electrical systems analysis reporting
- Guaranteed repair or replacement of components that suffer accidental breakdown
- Provides overtime guaranteed repair

TEGG PRIME

- Energised and de-energised testing
- De-energised preventative maintenance
- Guaranteed repair or replacement on components that suffer sudden accidental breakdown
- Provides overtime for guaranteed repairs
- Includes extra expediting services (express freight)

Maintenance...

REGULAR, QUALITY MAINTENANCE BY IRWIN ELECTRICAL IS A COST-EFFECTIVE SERVICE THAT ENSURES YOUR BUSINESS CAN CONTINUE TO OPERATE SMOOTHLY, WITHOUT THE WORRY OF UNWELCOME DISRUPTION.

Irwin Electrical has been at the forefront of commercial and industrial maintenance contracts for over 16 years and with that experience comes the knowledge of how to deliver an effective and efficient service.

Our competent and fully qualified maintenance electricians are on hand 24-hours-a-day, seven-days-a-week to provide contract specific maintenance programmes for our clients.

Rather than offer a one-size-fits-all service, we carry out detailed assessments to develop a bespoke maintenance programme tailored to meet your needs. Whether it is a requirement for constant electrical support or simply an annual inspection, our flexible approach makes all the difference.

This personal service extends to conducting out-of-hours support and installation works – another perfect example of how we work around you!

WHAT WE CAN OFFER

- Preventative maintenance
 - Reactive maintenance
 - Call-out facility
 - Electrical equipment breakdown repair
 - Electrical fault-finding in machine breakdowns
 - Nationwide reactive maintenance team
- irwin 24** our dedicated 24-7 call-out service for premium customers

PREVENTION IS BETTER THAN THE CURE

Electrical Inspection & Testing

HIGHLY SKILLED AND FULLY QUALIFIED, OUR INSPECTION AND TESTING TEAM ENSURES THAT BUSINESSES COMPLY WITH THEIR DUTY OF CARE TOWARDS EMPLOYEES AND THOSE WHO MAY USE THEIR FACILITIES.

As approved NICEIC, RECI and TEGG Service® contractors, our innovative testing division works within the commercial, industrial, public and domestic sectors to meet all compliance and business activity driven testing requirements.

Electrical testing is the only recognised method ensuring the integrity of your electrical systems, ensuring they are reliable and safe.

We adopt a robust approach to ensure minimal disruption and risk mitigation to your business while still maintaining the highest standards.

The vast knowledge within this team is combined with the use of the latest technology, software and reporting techniques to provide a comprehensive service and cost-effective testing package.

WHAT WE OFFER

Our inspection and testing engineers are qualified to issue industry-approved certificates for:

- Fixed wire test and Inspection (BS 7671)
- Emergency lighting test and inspection
- Thermal imaging and ultrasonic electrical surveys (TEGG Service®)
- Haradous areas (gases, potentially explosive materials etc)
- Power quality and harmonic surveys
- Portable Appliance Testing
- Fixed Appliance Testing
- Visual safety electrical survey reports

SAFETY FIRST AT ALL TIMES
